## CMC ASSOCIATE SCIENTIST

### NADIA GUARINI

Executive Search Consultant  
0032.497.98.18.12  
[nadia.guarini@hronegroup.com](mailto:nadia.guarini@hronegroup.com)

### SOFIE PAEPS

Managing Director  
0032.478.93.15.11  
[sofie.paeps@hronegroup.com](mailto:sofie.paeps@hronegroup.com)

The company is a late-stage biopharmaceutical company that is creating and developing a pipeline of differentiated antibody therapeutics. The unique SIMPLE Antibody™ platform and suite of Fc engineering technologies combined with the complementary expertise of our people enabled us to build a clinical-stage portfolio of novel product candidates – tailored from discovery through development to address patient needs.

We are seeking a motivated and detail-oriented CMC Associate scientist to join our team. This role will primarily focus on setting up and drafting quality documents, managing investigations, and overseeing changes within a GMP environment. The ideal candidate will have a strong biology background and a keen interest in transitioning to a more administrative role.

### THE POSITION

- Master's degree with 2-3 years of experience in a GMP environment;
- Strong background in biology; chemistry background is a plus but not essential;
- Proven ability to work independently and take initiative in a fast-paced environment;
- Excellent attention to detail with strong organizational skills for autonomous planning;
- Effective team player with the ability to collaborate across teams and functions;
- Strong communication skills to interact with various stakeholders and external partners;
- Open-minded and willing to own responsibilities as they grow within the role.

### REQUIREMENTS

- Master's degree with 2-3 years of experience in a GMP environment;
- Strong background in biology; chemistry background is a plus but not essential;
- Proven ability to work independently and take initiative in a fast-paced environment;
- Excellent attention to detail with strong organizational skills for autonomous planning;
- Effective team player with the ability to collaborate across teams and functions;
