THE POSITION

We are seeking a new Medical Advisor for one of our clients, a prominent global pharmaceutical company. This Medical Advisor will provide support, information and advice on medical and scientific issues to internal clients such as marketing, sales and market access as well as to external clients such as health professionals, researchers, regulatory authorities, among others.

The Medical Advisor will ensure effective communication and collaboration across a multifunctional team to meet the company's and HCPs needs and ultimately contribute towards the best patient care in an efficient and compliant manner.

RESPONSIBILITIES

- Provide medical and scientific advice to all members of the affiliate for the development of programs, strategies, and tactical approaches ensuring compliance with regulatory, medical, ethical and corporate standards.
- Develop and carry out training, communication and publication plans from a scientific and medical perspective.
- Provide medical evaluation and approval for promotional and educational materials.
- Provide responses to requests for medical information on approved and non-approved products/indications.
- Proactively develop and promote relationships with new healthcare professionals, KOLs and speakers.
- Strengthen and create professional links with Medical Associations, Academic Entities and Patient Organizations as applicable.
- Contribute to the implementation of scientific and research projects in the field according to the local medical strategic plans
- Identify, collect and communicate medical insights related to treatment trends, clinical practice trends, research and market landscape including key insights from medical conferences and provide cross functional feedback internally.
